

Press Release**23rd April 2014****CREAT3D adds the UP Plus 2 3D printer to product range.
Specialist ABS desktop 3D printer available at CREAT3D.**

CREAT3D Ltd (www.desktop3dprinter.com), the independent specialist retailer of desktop 3D printers and 3D scanners has added a new specialist ABS desktop 3D printer to its existing product line-up.

The UP Plus 2 is an excellent desktop 3D printer, reliably producing small prints in ABS filament with a great surface finish. With an auto-levelling print pad, the UP Plus 2 has a simple and quick set-up process and comes with UP software that is compatible with both Windows and Mac operating systems.

The UP Plus 2 has an in-built memory so that once your 3D print ready file has been transferred to the 3D printer (via a USB cable connected to your laptop or computer), the cable can then be detached during printing.

The UP Plus 2 is particularly suited to engineering based businesses with the need to produce small detailed parts that can withstand form, fit and function testing.

Priced at £1,065.00 excl. VAT, full details and technical specifications on the UP Plus 2 desktop 3D printer are available at www.desktop3dprinter.com

----- **Ends** -----

CREAT3D Ltd. CREAT3D is a specialist retailer of desktop 3D printers, 3D scanners and accessories. The company, which began in 2012, is based in Berkshire and operates within the United Kingdom.
